NEIL JHON HIZON

GENERATIVE AI CONTENT & VISUAL EDITING | WEB DEVELOPER

San Ildefonso, Bulacan, Philippines | neilhizon2@gmail.com | Portfolio: neilhizon11.github.io/Portfolio

PROFESSIONAL SUMMARY

Web developer with hands-on experience using Claude and ChatGPT for structured prompting, code generation, troubleshooting, and content refinement. Uses AI-assisted image editing to upscale photos, create icons and assets, and remove unwanted background subjects. Skilled in reviewing generated results for accuracy, functionality, and visual consistency.

RELEVANT SKILLS

AI workflows: Claude (Plan Mode), ChatGPT, detailed prompts, requirements clarification, output review and iteration
Visual editing: AI image upscaling, icon and asset creation, background subject removal, brand consistency, Figma
Development & QA: Shopify, WordPress, Liquid, HTML, CSS, JavaScript, PHP, debugging, responsive testing, Git

PROFESSIONAL EXPERIENCE

Freelance Shopify & WordPress Developer | Independent Contract Work **Dec 2024 - Oct 2026**

- Used Claude Plan Mode to clarify Shopify requirements, ask follow-up questions, and map out solutions before generating code.
- Wrote detailed prompts to generate, debug, and update Shopify code; accelerated initial builds of complex page structures and interactive features.
- Used generative AI to upscale images, create custom icons and visual assets, and remove unwanted people from photo backgrounds.
- Reviewed AI-generated code and creative outputs, refining functionality, visual quality, and consistency with project briefs.
- Updated website copy and layouts, translated Figma designs, and performed cross-device visual and functional QA.
- Built and maintained Shopify and WordPress pages using Liquid, HTML, CSS, JavaScript, and PHP; troubleshot issues and reported progress.

WordPress Developer | iPhiTech IT and Digital Solutions Corporation **Jan 2024 - May 2024**

- Built and updated responsive websites with WordPress, Elementor, Divi, Shopify, and GoHighLevel, including page layouts and forms.
- Reviewed site changes, resolved visual and functional issues, and made revisions based on quality checks and feedback.

Web Developer Intern | iPhiTech IT and Digital Solutions Corporation **Aug 2023 - Nov 2023**

- Developed responsive pages using Bootstrap, WordPress (Elementor/Oxygen), and Shopify; created a PHP website with CRUD functionality.

SELECTED WEBSITE PROJECTS

PolyJumps | Shopify | polyjumps.com - Custom product-page and cart interactions; responsive layout and usability checks.

Kind Cotton | Shopify | kindcotton.com - Custom modal-based section with responsive design and interaction testing.

EDUCATION

Bachelor of Science in Information Technology | Bulacan Agricultural State College | 2020 - 2024
