NEIL JHON HIZON

SHOPIFY DEVELOPER | FRONT-END DEVELOPER

San Ildefonso, Bulacan, Philippines | neilhizon2@gmail.com | Portfolio: neilhizon11.github.io/Portfolio

PROFESSIONAL SUMMARY

Shopify-focused front-end developer experienced in building and maintaining Online Store 2.0 themes, custom product pages, and landing pages. Skilled in Liquid, JavaScript, JSON templates, metafields, metaobjects, and Shopify APIs, with hands-on work in subscriptions, cart functionality, app integrations, performance optimization, and cross-device QA.

TECHNICAL SKILLS

Shopify: Liquid, Online Store 2.0, Shopify Plus, JSON templates, sections/blocks, metafields, metaobjects, Storefront API

Front end: HTML5, CSS3, JavaScript, responsive design, Bootstrap, Tailwind CSS, React

Tools & platforms: Git/GitHub, BitBucket, Shopify Flow, Recharge, Klaviyo, Figma, WordPress, Slack, ClickUp

PROFESSIONAL EXPERIENCE

Freelance Shopify & WordPress Developer — Dec 2024 - Oct 2026

- Developed and maintained Shopify and WordPress websites for multiple clients, delivering custom functionality, responsive layouts, and ongoing improvements.
- Built custom Shopify themes, landing pages, product pages, and reusable sections using Liquid, HTML, CSS, and JavaScript.
- Customized WordPress websites using Elementor, Bricks, WooCommerce, and other page builders, implementing custom CSS, JavaScript, and PHP functionality.
- Structured dynamic product and page content using Shopify metafields and metaobjects to build reusable PDP modules, accordions, and flexible templates.
- Developed JavaScript-based variant selectors, cart interactions, product filtering, and customer-tag-based pricing visibility.
- Customized subscription and bundle experiences using Recharge and Loop Subscriptions, alongside third-party Shopify app integrations.
- Utilized Shopify Admin GraphQL and Storefront APIs to implement custom functionality and support product-data workflows.
- Integrated and troubleshot Shopify apps, WordPress plugins, forms, and e-commerce features while optimizing performance and conducting cross-device QA.
- Collaborated with designers, project managers, and clients using Git, Bitbucket, Slack, and ClickUp.

WordPress Developer | iPhiTech IT and Digital Solutions Corporation — Jan 2024 - May 2024

- Built and maintained responsive websites using WordPress, Elementor, Divi, Shopify, and GoHighLevel.
- Customized forms and plugins, implemented HTML/CSS changes, and resolved bugs through QA and iterative updates.

Web Developer Intern | iPhiTech IT and Digital Solutions Corporation — Aug 2023 - Nov 2023

- Developed pages with Bootstrap, WordPress (Elementor/Oxygen), and Shopify; built a PHP website with CRUD functionality.
